

News Update 21/9/2022

A taster from our committee meeting on the Monday

Its time to reintroduce some events into your calendars starting with another fun shoot

- 30<sup>th</sup> October (Sunday) Halloween shoot starting 2:30pm  
Come shoot some zombies or a surprise shoot followed by a jacket potato and chilli
- Reintroduction of a club day
  - Sunday afternoon from 1:00pm this is a time to learn how to shoot an event and develop your skills or even get some help with your equipment if it is needed
  - Tuesday evening will also be designated as a club day
  - Starting in October if its too cold outside the indoor range can be used on these days
- We will be running a postal league within the club with a different event each month starting in October go to the club either on a club day or day of your choice and shoot the round for that month. Record your score date it and get a backup signature to verify you have followed the rules. These will be collated and the league table posted on the web site That means juniors, novices, seniors regardless of gender and bow discipline we will separate out each class.  
This is a way to develop your skill
- Planning is in progress to organise a Xmas meal, more detail will follow
- The club will be introducing an App that will allow you to keep your progress updated, sign into the range, have forums, see up coming events and register on the app, personal details will not be visible. On the calendar you will be able to see who is at the club on a day and you may want to join them or even arrange a coaching session with a coach. We can divide members into the type of bow you shoot so it will be possible to ask questions via the forum if you need help within your particular group as there will be someone with the experience that will be able to help. More will follow in due course as this develops. For those who don't have the technology or think they don't understand it will still be able to use a manual method. This App will bring the club administration into one place and not have different places for emails, club members, committee, coaches, wait list for beginners, events and personal development.

These are just a few items to give you a taster of where we are wanting to develop the club as your new committee. You have an enthusiastic team working for you

Your Chairman,  
Malcolm Edwards
